Our History

Housed in a 1901 former cooperage, Wythe Hotel is one of the last buildings of its kind in Williamsburg. We are proud stewards of Brooklyn history.

● **1901** - Our historic building was designed to be a cooperage.

● **2008** - Wythe Hotel construction began with an emphasis on preserving the building's original beauty and craftsmanship.

● **2012** - We opened our doors to the community and the world.

Sustainability

CONSIDERED CUISINE

RESTORING MARINE ECOSYSTEMS

Thousands of pounds of oyster shells donated with the goal of returning IB oysters to the New York Harbor through the Billion Oyster Project

LOCAL FARM NETWORK

We source directly from local growers and partner with purveyors who support independent, family-run farms

DELIBERATE CONSERVATION

ADAPTIVE DESIGN

Our design preserves our building's century-old exposed brick walls, cast iron columns, and original timber

RESOURCE CONSERVATION

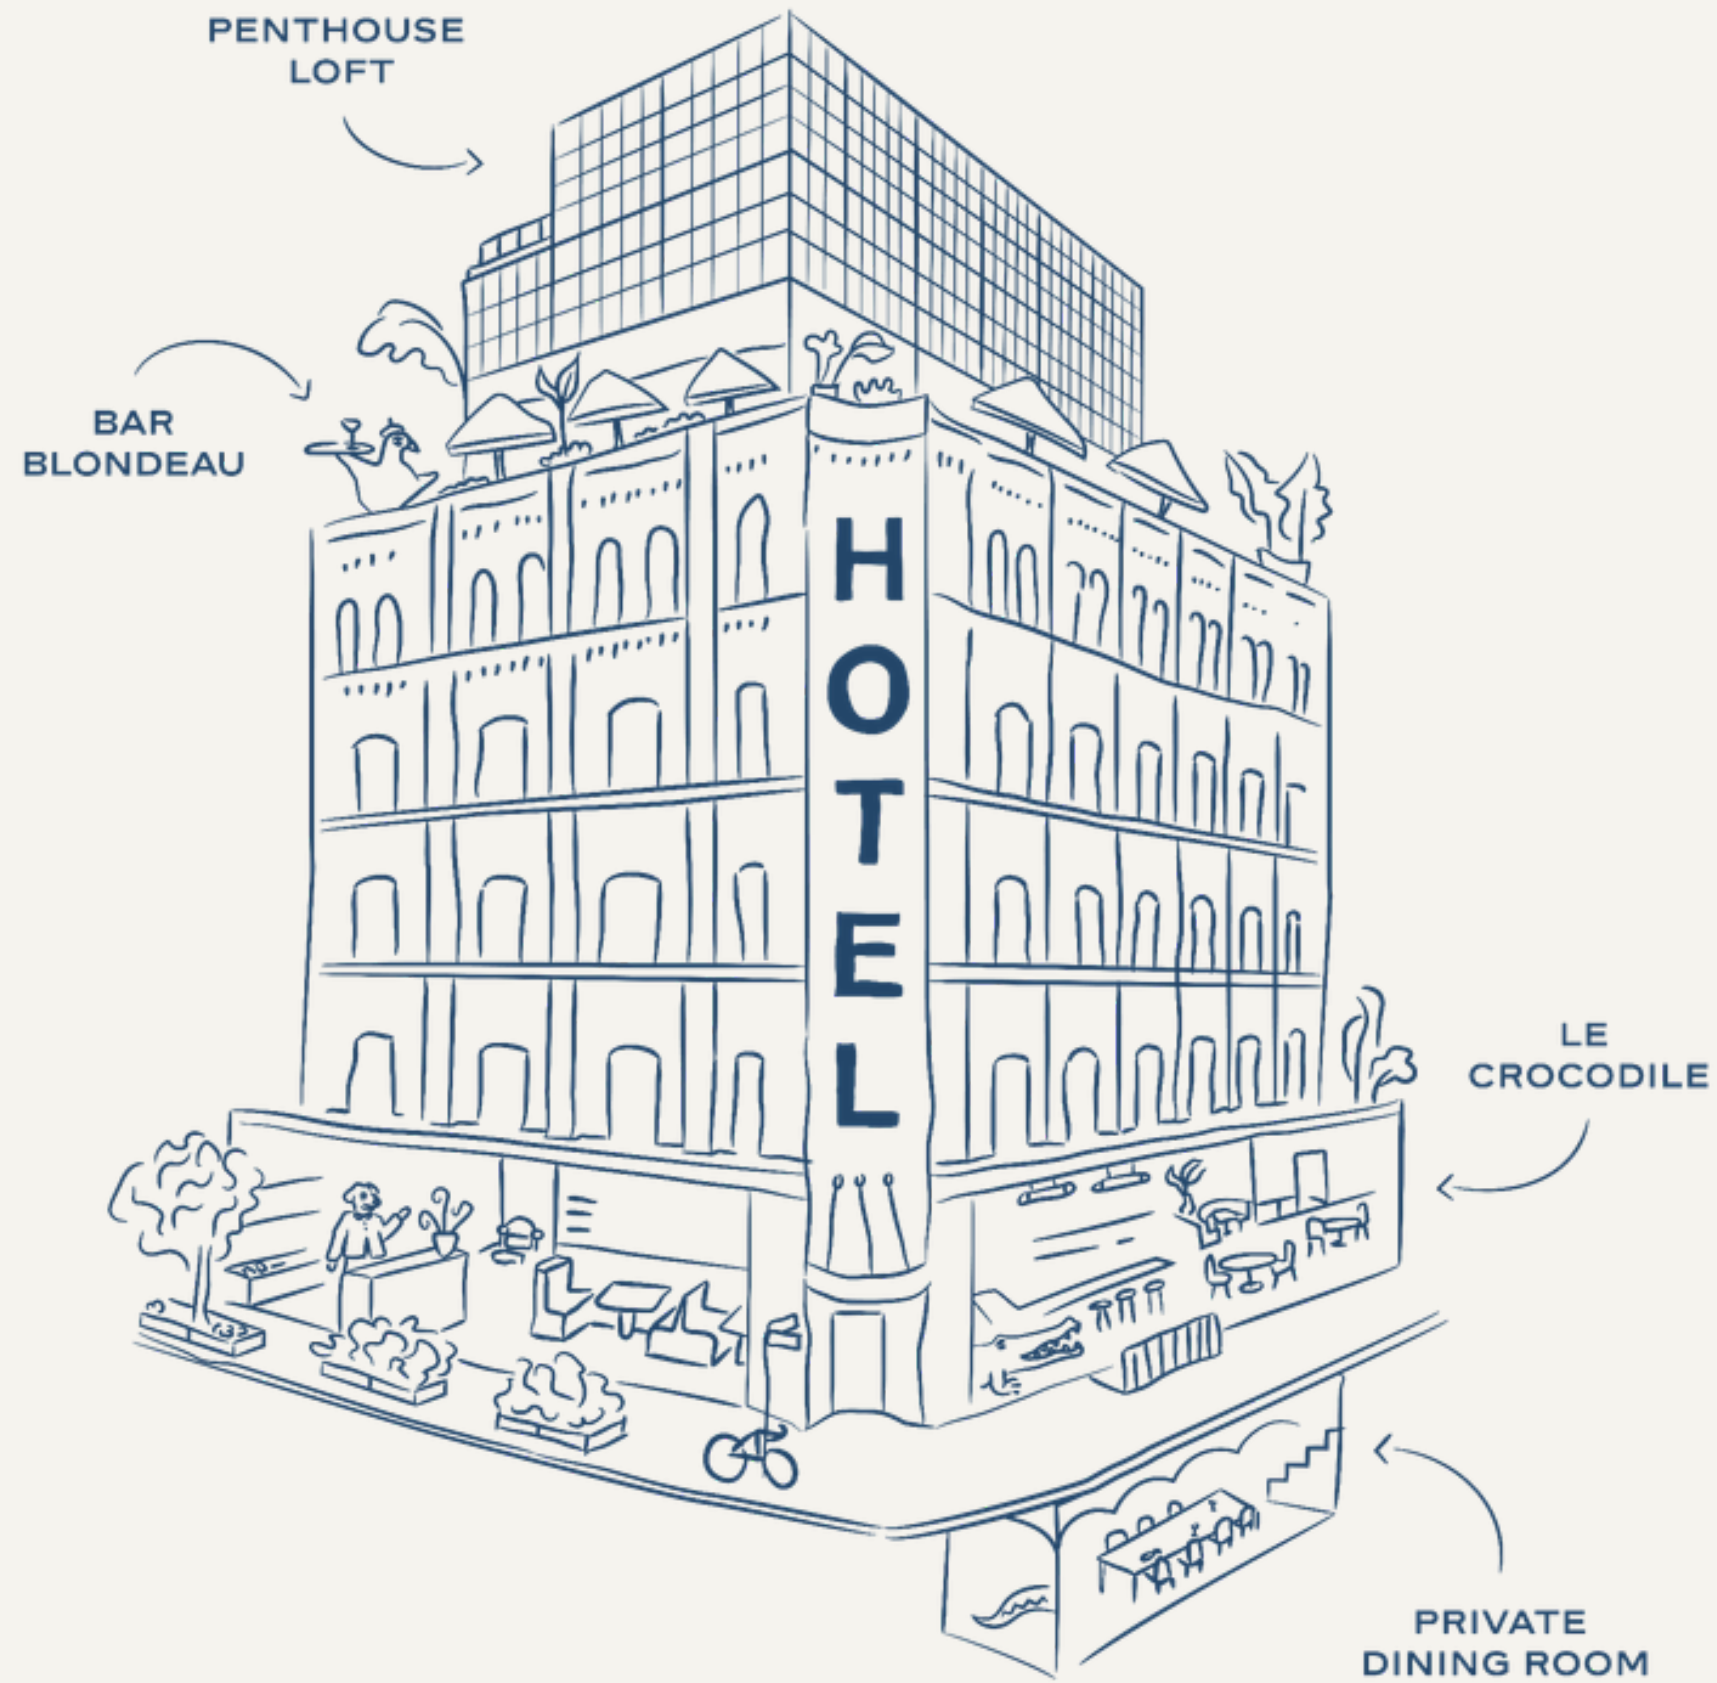

We have low flush toilets, a closed loop cooling system, and we use 100% Green power through ConEd
